

2025 SBL International Meeting Proposal Review Instructions

1. Logging in and General Navigation

Open the Chair Module of [Abstract Management System](#) link in your browser:

The screenshot shows the login interface for the SBL Society of Biblical Literature. At the top is the SBL logo and the text "SOCIETY OF BIBLICAL LITERATURE". Below this is a large button labeled "CHAIR LOGIN". Underneath are two input fields: "Email" with an envelope icon and "Password" with a lock icon. A dark blue "Login" button is centered below the fields. Below the "Login" button is a link for "Reset Password". At the bottom of the page, it says "Conference and Association Management Software by X-CD Technologies Inc."

The login is the same for both program unit chairs and steering committee members. If you have logged in to the system before, enter your email and password. If you have not logged into this system, use the “reset password” function to create a password, and then log in using that password.

Once you are logged in to the chair module home, you will see four options to the left.

In “Manage Submissions,” you can see an overview for all of the proposals sent to your unit.

The screenshot shows the top navigation bar with the Society of Biblical Literature logo and the text 'Welcome, Program Unit Chair Training' and '2025 International Meeting'. The sidebar on the left contains several menu items: 'Manage Submissions' (highlighted with a red circle), 'Add Submissions', 'Manage Review', 'Perform Reviews', 'Profile Home', and 'Logout'. The main content area is titled 'Manage Submissions' and features a 'Filter' section with two dropdown menus: '- By Review Status -' and '- By Data -'. Below these is a search input field with the placeholder text 'Find submission numbers, eg. 123,124' and a 'Search' button.

Clicking on the proposal will show you all of the information from the proposal form. If you need to edit a proposal, you can do so by clicking the Edit button. Please note, however, that you should only edit a proposal in consultation with and with the permission of the proposer(s). You can also export a list of your proposals into a variety of formats.

The second option, “Add Submissions,” allows you to upload an abstract on behalf of another person.

This screenshot is similar to the first one, showing the 'Manage Submissions' page. In this version, the 'Add Submissions' menu item in the sidebar is highlighted with a red circle. The rest of the page, including the top navigation bar and the main content area with the filter and search options, is identical to the first screenshot.

In this area, you will first be able to search for the author within the system. If they are not found, you may add the user. However, please do not create a new user unless that person is not already in the system. If multiple accounts are created for a single person, there will be a much higher chance of a scheduling conflict when sessions are created.

Add New Abstract

(1) Author Details

Existing Contact	New Contact
<div style="background-color: #fff9c4; padding: 5px; margin-bottom: 10px;">Search for existing contact by using Lastname, Firstname for further drilldown.</div> <p>Author/Presenter</p> <input style="width: 100%;" type="text" value="Enter last name"/>	<div style="background-color: #fff9c4; padding: 5px; margin-bottom: 10px;">If the individual you are adding the submission for does not have a profile, fill in the below fields to add their profile to the site.</div> <p>Firstname * <input style="width: 100%;" type="text"/></p> <p>Lastname * <input style="width: 100%;" type="text"/></p> <p>Company * <input style="width: 100%;" type="text"/></p> <p>Email * <input style="width: 100%;" type="text"/></p>

Proposal Title

Mark as Invited

Invited talks may get special permissions depending on additional settings.
 eg. Omitted from review process.

Add Abstract

After adding the author information and the proposal title, click Add Abstract. This will take you to the form to fill in the remaining information.

Membership in SBL or EABS is required for all proposals, including ones added by program unit chairs, except in the case of waiver recipients whose scholarship is primarily outside of biblical studies and related disciplines. Applications for membership waivers may be made here: https://societyofbiblicalliterature.formstack.com/forms/waiver_request_form. Previous members of SBL and EABS or those who have attended past SBL meetings are not eligible for waivers. Proposers who are not granted a waiver must obtain membership and register for the meeting as a member in order to remain on the program.

Please note: this form is for paper presentations with abstracts. Other roles that do not have titled presentations or abstracts (e.g., panelists) should be added in the session creation period, not at this point. **Please do not add roles like panelists at this stage.**

The third option on the left is “Manage Review.” Because all program unit chairs and steering committee members will be assigned to review the proposals by default, you should not need to use this screen. However, you may find its options to export information about the current review status of your proposals helpful.

The fourth option, “Perform Review,” is where you can review the proposals. By default, all proposals for the unit will be displayed. You can use the search filters to find specific proposals, if necessary. To open and review a specific proposal, click on the button with the proposal’s ID, next to the proposal’s title.

 5 - Excellent

Comments to the Steering Committee
These comments will not be shared with the proposer(s).

Comments to Author(s)
These comments will be shared with the proposer(s).

Fill in all of the requested information. Please note that one comment box has comments that will only be visible to the rest of the committee, who will be able to see all of the information in your review. The other comment box is for comments that will be shared with the proposers once they are notified of a decision. For the latter, please be sure to include only information that you wish to be shared with a proposer. If you do not wish to share any comments with the proposer, simply leave this field blank.

When you have completed the information for your review, click the “Submit Review” button.

3. Assigning a Final Status

While the option to assign a final status will show up for both program unit chairs and steering committee members, only program unit chairs should enter a final status into the system. To enter a final status, click on the "Final Status" button on the menu bar.

974	Test
Chair Module Tutorial	

Notifications about the proposals will not go out when the status is assigned. Rather, all proposers will be notified at the same time when the review round is complete. Because of this, a final status may be changed up until the point when the notifications are issued.

4. A Note about the Primary and Secondary Rounds

Reviews now consist of two rounds, the primary and secondary rounds. During the primary round, proposals are available to the unit designated as the primary unit. Any proposal accepted during this period will remain with the primary program unit and will be available to add to a session during the session creation period. Proposals rejected during this period will be transferred to the secondary unit indicated on the proposal form. If a proposal is accepted in the secondary unit, the secondary unit will be able to add the proposal to a session during the session creation period. Proposers of accepted proposals will be notified at the conclusion of that round. Proposals that are not accepted during either period will be rejected in the system, and the proposers will be notified that the proposal was not accepted.

Because proposals that are not accepted at the end of the primary review period will be transferred to the secondary unit, it is critical that program unit enter a final status by the end of the review period. **Failing to enter a final status will result in the proposal's transfer to another unit.**
